Summary

Full stack developer building production web apps and agentic AI systems with Python, FastAPI, React and Next.js. Shipped a live LLM screening agent, a Supabase e-commerce store and Flask ETL pipelines.

Education

B. Tech in Computer Engineering — *2023 – 2027*
K. K. Wagh Institute of Engineering Education and Research — *CGPA: 7.75 / 10*

Technical Skills

Languages	Python, TypeScript, JavaScript, SQL, C++
Backend & Frontend	FastAPI, Flask, Node.js, REST APIs, React, Next.js, Tailwind CSS
AI & LLMs	LLM agents, Gemini API, Pydantic, embeddings, scikit-learn, OpenCV, YOLOv8
Data & DevOps	PostgreSQL, MySQL, Supabase, Docker, Git, Linux, FastAPI Cloud

Work Experience

Papillon Ethinics | papillonethinics.com — *Nov 2024 – Present*
Full Stack Developer — *Pune, India*

- Built a production full-stack e-commerce platform with Next.js and Supabase, covering products, inventory, orders and administration with near-zero recurring infrastructure cost.
- Implemented Razorpay payments using Supabase Edge Functions and webhooks, including payment verification, order finalization and inventory updates.

DS Corporation | dscorp.in — *Dec 2025 – Feb 2026*
Software Developer — *Remote*

- Built Flask APIs and scraping/ETL pipelines merging multi-source product catalogues into PostgreSQL.

Legismith Partners LLP | legismith.com — *Aug 2025 – Nov 2025*
Software Developer Intern — *Pune, India*

- Built 3 WordPress sites and cut render-blocking JavaScript, raising PageSpeed **25 to 97** and SEO **75 to 95**.
- Automated lead management with Google Apps Script, integrating Forms, Sheets, CRM and email.

Projects

AI Screening Pipeline | hyt-assignment.fastapicloud.dev — *2026*
Agentic AI & Full Stack — *Deployed in Production*

- Agentic resume-screening app (FastAPI, React, TypeScript) that extracts, matches, explains and decides.
- Gemini emits validated JSON; deterministic Python scores quoted evidence and escalates, never rejects.
- Outranked keyword, TF-IDF, embedding and LLM-only baselines; tested fairness and prompt injection.

Exemoo - Motion Controlled Gaming System — *2026*
Computer Vision & Networking — *Final Year Project*

- Gaming platform with a reusable smartphone motion controller for kids under 10 and the elderly.
- Real-time tracking with MediaPipe Pose, IMU sensor fusion and OpenCV over a custom low-latency link.

Smart Stair Cleaning Robot (Patent Granted) — *2024*
AI & Robotics — *CSI Project*

- Autonomous stair-cleaning robot using OpenCV and YOLOv8 for navigation; co-inventor, **Patent 202421074147**.

Achievements & Activities

Awards	Best Student Project – CSI Mumbai Chapter (National)
Competitions	1st – Tech Sanjivani (National), 1st – Avishkar & F.Y. Project Exhibition 2nd – Laghu Udyog Bharti (State), 2nd – HAL Science Exhibition
Music	Composer, Vocalist & Guitarist; University Winner; Performed at TEDx KKWIEER
